ment of Neglected Children

children of W. Cross. The

amount of the latter account
was \$38.75, and had been out-
standing against the town for
close upon two years.

The records of the town showed
credit for half the above
amount and the secretary was
instructed to communicate with

regard.

By Law 51, to amend By-Law

A Good Roads Movement

Several petitions have lately
been presented to the govern-
ment by the people of this dis-
trict, asking that certain much-
needed improvements be effect-
ed along the main interprovin-
cial highway through The Pass.

The petitions ask that a new
road be built along the south
side of Crow's Nest Lake, and
that changes be made in the
routing or grading of the road
at other points which in the
past had been practically im-
passable.

In connection with this move-
ment a meeting of all those in-
terested, particularly members
of the Pass Automobile Associa-
tion and owners of cars, is
called to take place at the Cos-
mopolitan hotel at 3 o'clock on
Wednesday afternoon next.

Blairmore Red Cross

The percentage collected from
the merchants for February 29th
amounted to fifty-eight (58) per-
cent. This amount was added to
that received for the range and the
two and we have the goodly sum
of one hundred and fifty dollars
(\$150) which has been forwarded
to Calgary. We acknowledge the
thanks, a generous donation of two
dollars from Mrs. Stewart, the
cliner of the range.

A few of us for the younger
members of their friends will be
held in the school house on Friday
March 10th. The older workers
and friends of the society are cor-

Old Men Wearing King's Uniform

In preparing the roll of honor for The Pion, we have endeavored to give a full list of those who have answered the call of "Young King and Country, Try Nod Yea, Euloid Today." We hope anyone whose name is not on the list and who is entitled to a position on it, will come forward and give us their name and rank and help to swell The Pion Roll of Honor.

Canadian recruits have been rejected because of some defectiveness—flat feet, varicose veins, and these in men who at least thought themselves physically sound, should give food for thought to those who have control of our public health, particularly in the schools. It would seem that if a better system of physical training and more frequent medical examinations had been in vogue in our public schools a higher percentage of recruits would have passed the medical examination.

Post Office Not Much Affected by the War

Increase Reported in Almost Every Branch in the Service

The war has not affected very adversely the letter post office. The post office reported in the London by the London Times that the letter post office is in a good showing in the war.

No statistics are given with respect to the parcels post, but the report states that the parcels post has been successfully conducted during the year and its great and growing popularity has demonstrated that it supplies a public need.

As the parcel post reaches every point throughout the country its facilities have been increased by the service operated by private companies and its use has increased.

Rural mail routes have been increased by 60 and more than 27,000 additional boxes have been erected.

Post office revenue has been estimated at \$1,000,000, which is a decrease of \$1,000,000 from the previous year.

Bat's Own Tablets

Mr. E. C. Lutz, St. Lazaro, Man. writes: "I have used Bat's Own Tablets for the past year for my five children and can truthfully say there is no medicine so effective as Bat's Own Tablets."

The tablets regulate the bowels and stomach, cure constipation, indigestion, upset stomach and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

German Use Jerusalem as War Base

One of the military who has recently returned to home states that an English colleague, who was with him in Syria and was now returned to England, saw very important preparations for the defense of Jerusalem.

To have the children sound and healthy is the first aim of the mother. They cannot be healthy if troubled with worms. Use the Worm Eater.

Up and down the village street walked old Tomkins, dressed all in his Sunday best, with a clean collar on.

"Hello, old fellow!" a friend hailed him. "Aren't you working today?"

"No," replied the old man proudly. "I'm celebrating my golden wedding."

"Really? That you've been married fifty years?"

"Yes, I have."

"Then weren't your Tompkins' last celebrating too?"

"That's true, Tompkins' the old man coddly rebuked the idle questioner, "has nothing to do with it."

Drug Fiends

Moral Degradation Which Results From the Drug and Liqueur Habit

That alcohol is a habit forming drug is denied by no one but its denial would be useless because every day by the millions of people become the victims of the alcohol habit cannot break away from it. Nothing is more pathetic than to see some of these men trying to break out of the habit, suffering pain and distress and failing time after time until they give up in despair and plunge in or then over, in hopes of ending their trouble.

Morphine is also a habit forming drug but it is very little used compared with the various alcoholic beverages because it is not pleasant to the taste and because the habit of treating to a dose of morphine has not become popular. Its action is very similar to that of whiskey or brandy in moderate doses it quiets the sensibility to pain and in large doses causes a stupor resembling profound sleep.

Like alcohol, once the habit is fully formed, it is almost impossible to break off. Men who make a specialty of treating the drug and alcoholic habit tell me that it is easier to cure permanently a morphine habit than an alcohol habit.

It is largely the habit many have formed of having their liquor supplied by the drug dealer that has made it so difficult to break away from. It is not long since that the drug dealer refused to take the habit of the drug dealer to break away from.

Both these drugs have a powerful effect on the moral sensibility so that a person who has once used them will find it difficult to break away from the habit. It is almost impossible to break away from the habit.

Private Harry Watson, who lost a leg at the front and was recently invalided home to Macleod, died on Friday last. Harry was a member of the 10th battalion, made famous at the battle of Ypres. The effect of the gas had apparently passed away and latterly the soldier was getting along splendidly with a cork leg in place of the one he lost in battle.
